The program is designed for those teaching Geography from 7-12. The best Geography classes, of course, are ones where your students are engaged. You will look at resources and teaching ideas taking note of the **e5 instructional model**, which requires students to be provided with tasks which allow them to Engage, Explain, Explore, Elaborate, and Evaluate their learning.

The GTAV provides many resources that you can use to stimulate learning in Geography. Use this session to work with many of the resources produced by your association which may take the hard work out of preparation whilst promoting great teaching and learning. This session will cover the varied resources available in the GTAV Orbis library, how you can access these resources, the Global Education Project and many other ways that your subject association can be of assistance to you.

REGISTRATION CLOSSES FRIDAY 30TH APRIL 2010

GTAV Events Registration Form

Event Name _____

Details

Name of Attendee: _____

School/Institution: _____

Postal Address: _____
