Using GTAV Resources in the Geography Classroom

This registration form is also available on the GTAV website www.gtav.asn.au

Monday 3 May 2010, 2.00 to 4.00pm

GTAV Office 503 Burke Rd

Camberwell South

The program is designed for those teaching Geography from 7 – 12. The best Geography classes, of course, are ones where your students are engaged. You will look at resources and teaching ideas taking note of the e5 instructional model. Consider your teaching practice and students improved performance in Geography by using our resources to plan to engage, explore, explain, elaborate, and evaluate student learning.

The GTAV provides many resources that you can use to stimulate learning in Geography. Use this session to work with many of the resources produced by your association which may take the hard work out of preparation whilst promoting great teaching and learning. This workshop will highlight the relevant Geographical resources available in the GTAV Orbis library, how you can access these resources, the Global Education Project and many other ways that your subject association can be of assistance to you.

*This professional learning opportunity will contribute to satisfying the **Standards of Professional Practice** as you are accessing knowledge and experience from outside your immediate work environment. During the afternoon there will be opportunities to draw on aspects to satisfy the following standards.*

Professional Knowledge		Professional Practice			Professional Engagement	
Teachers know how students learn and how to teach them effectively	Teachers know the content they teach	Teachers plan and assess for effective learning	Teachers create and maintain safe and challenging work environment	Teachers use a range of teaching practices and resources to engage students in effective learning	Teachers reflect on, evaluate and improve their professional knowledge and practice	Teachers are active members of their profession
