

**LandLearn** is a statewide education program supported by the Department of Primary Industries.

**LandLearn** participates in many GTAV conferences and has provided fieldwork for teachers to increase understanding of the Murray-Darling Basin.

A comprehensive resource has been developed based on sites in the **Shepparton Irrigation District (SIR)**. This resource includes fact sheets, images, suggested activities and very clear route descriptions.

The detail in the resource will enable you to run a self-directed fieldtrip. **LandLearn** staff may be available to assist; a cost is involved in this.

Enquiries about this resource can be made to [landlearn.program@dpi.vic.gov.au](mailto:landlearn.program@dpi.vic.gov.au)

The resource called **Water and Food**, can be downloaded from
